| Affordable Sunglasses from EyeBuyDirect Review

BY SKY ON JULY 4, 2015 CONTRIBUTORS, FASHION, FOR HER, FOR HIM, MOST RECENT, REVIEWS, REVIEWS + GIVEAWAYS, SHOPPING, SKY

Last fall I had the chance to try out a pair of eyeglasses from EyeBuyDirect.com – yes, the girl who doesn't need prescription glasses likes to change up her look every now and again. In addition to prescription glasses, **EyeBuyDirect** offers sunglasses, with options to suite your needs!

EYEBUYDIRECT

I ordered a pair of Kataysk sunglasses for women. Brown in color, they have a large frame that I find perfect for chilling out at the lake. I selected a gradient tint lens (\$4.00 extra) which features the 80% color at the top and slowly diminishes to 10% color at the bottom. It really looks fantastic with this frame.

The Kataysk frame retails for \$75.00 (non-prescription) or \$95.00 (prescription).

If gradient tint isn't your thing, don't worry! Sunglasses include a tinted lens for free. Mirrored and polarized lenses are also available at \$29 and \$30. I love how you can customize any frame to your liking! Need a prescription? Not a problem!

It's *fun* picking out eye wear from EyeBuyDirect. They have an EyeTry feature that allows you to upload a photo and get a good idea of what size and type of frame would be best on your face.

All eye wear come with a case and cleaning cloth and the cases are great! The Kataysk frames came with a structured, zippered case that will protect my sunglasses from scratches and the normal wear and tear in my handbag.

All of the eye wear from EyeBuyDirect can be ordered with or without a prescription. There are styles for both men and women with affordable frames starting at \$19. Fashionable frames, sporty frames, hipster frames...you name it! With the affordable prices, I could order several pairs and have a selection of sunglasses all summer long!
